Re: Geisinger System Services ("GSS") Facilities Department Performance Rating System for April 2017 (Highest Total Scorecard)

Dear Jeff,

As described in the GSS Facilities Qualification Form, Masonry Preservation Services, Inc was advised that the GSS Facilities Department regularly evaluates and assesses the work and services performed on construction projects for the Geisinger Health System. A Performance Rating System is employed to identify those contractors and professional firms that exceed, meet or fail to meet Geisinger performance expectations and requirements.

With full reservation of all rights and remedies under the contract, this letter is being sent to your attention to inform you that Masonry Preservation Services, Inc received the highest performance score for the work and services performed during April 2017 of all contractors and subcontractors engaged on active projects for the Geisinger Health System. Congratulations! This is a great accomplishment for your team and the Geisinger Facilities Department is truly appreciative of Masonry Preservation Services, Inc efforts.

As stated in the Qualification Form, results and conclusions from the performance ratings shall be utilized as a quality factor with future award considerations.

If you have any questions regarding the contractor performance rating system or the scorecard, please contact Todd Seip at 570-271-5462.

Sincerely,

Todd Seip
Senior Director, Quality & Regulatory Compliance

JEFF-
Congrats to you + your team!
Your team scored highest for
the month of April 2017
with the GUMC Annex 2
(R17002) PROJECT. SCOTT
was identified specifically
as a team player/
w/ great to work
with
